PERSONALIZING WINDOWS 7

Chapter-2

A. Write 'T' for true and 'F' for false.

- Windows is a Geometrical User Interface.
- Windows changes the transparency and intensity of the window border.
- Start button is not the gateway to windows and programs.
- The color used for windows' border, title bar, etc. is called the Window Color.

B. Complete the crossword.

C. Number the steps to update time on your computer.

- ☐ Use up/down buttons to change their values. With the change in the time in digital clock, analog clock is automatically updated.
- ☐ Close the Date and Time settings dialog box by clicking on OK button. The notification area will start showing the updated date and time.
- ☐ From Date and Time settings dialog box click on hours, minutes or seconds to change.
