INTRODUCTION TO SCRATCH

Chapter-4

A. Fill in the blanks to complete the script "To move sprite 50 steps":

Step 1 Click on the block.

Step 2 Drag out the block.

Step 3 Change the "10" to by clicking in the block and typing

Step 4 on the block in the Script area to see your sprite, move 50 pixels to the right (towards the face of the sprite).

B. Write the use of following blocks:

1. Looks -

.....

2. Sound -

.....

3. Motion -

.....

4. Events -

.....

C. Guess who am I?

1. I contain various predefined blocks that are used to perform specific tasks.

2. I am used to run a Scratch program.

3. I am used to stop the project running at the time.

4. I am the background of the stage.

5. I have blocks used to sense events, which run the scripts.
