PROGRAMMING IN SCRATCH

Chapter-9

A. Tick (✓) the correct option.

- Which logical operator will give result true only if the two expressions are true?
a. OR ☐ b. AND ☐ c. NOT ☐
- Which of the following is a Control block which runs the script continuously until stopped?
a. If..then...else ☐ b. Forever ☐ c. Both of these ☐
- Which of the following are used to hold values and strings?
a. Sprite ☐ b. Object ☐ c. Variables ☐

B. Write 'T' for true and 'F' for false.

- We cannot create variables in Scratch.
- If...then...Else is a Control block which checks the given condition.
- All the blocks in Scratch are of same colour.

C. Answer the following questions:

- What are Sensing blocks?
.....
.....
- Name the three Relational operators.
.....
.....
- If there is a requirement to store values, what you will do for the same?
.....
.....
