STEPWISE THINKING

Chapter-6

A. Number the pictures to shutdown a computer.

B. Write 'T' for true and 'F' for false.

1. A computer can only work using step by step instructions from us.
2. The process of completing one step and going onto the other is known as problem solving.
3. Case study refers to a task which is based on real life situations.
4. Problem Solving is the process of finding solutions to a difficult task.
5. In some task the sequence of steps can be interchanged.
6. Computational thinking means `thinking like a rabbit'.
