EVALUATION

Unit-7

1. Choose the correct option.

- (a) Which of the following is the last stage of the AI Project development cycle?
- | | | | |
|------------------------|--------------------------|-----------------------|--------------------------|
| (i) Problem Scoping | <input type="checkbox"/> | (ii) Data Exploration | <input type="checkbox"/> |
| (iii) Model Evaluation | <input type="checkbox"/> | (iv) Data Acquisition | <input type="checkbox"/> |
- (b) Which of the following is the output given by the AI model using Machine Learning algorithm?
- | | | | |
|-------------------------|--------------------------|--------------------|--------------------------|
| (i) Prediction | <input type="checkbox"/> | (ii) Reality | <input type="checkbox"/> |
| (iii) Both (i) and (ii) | <input type="checkbox"/> | (iv) None of these | <input type="checkbox"/> |
- (c) Which of the following is a tabular structure which helps in measuring the performance of an AI model using the test data?
- | | | | |
|------------------------|--------------------------|--------------------|--------------------------|
| (i) Table of facts | <input type="checkbox"/> | (ii) Prediction | <input type="checkbox"/> |
| (iii) Confusion matrix | <input type="checkbox"/> | (iv) None of these | <input type="checkbox"/> |
- (d) Which of the following is the percentage of correct prediction out of the total observations made in an AI model?
- | | | | |
|-------------------|--------------------------|----------------|--------------------------|
| (i) Accuracy | <input type="checkbox"/> | (ii) Precision | <input type="checkbox"/> |
| (iii) Sensitivity | <input type="checkbox"/> | (iv) F1 Score | <input type="checkbox"/> |

2. Complete the following statements

- (a) If Precision = Low and Recall = Low then F1 Score will be
- (b) If Precision = Low and Recall = High then F1 Score will be
- (c) If Precision = High and Recall = Low then F1 Score will be
- (d) If Precision = High and Recall = High then F1 Score will be

3. Answer the following question.

What do you mean by Recall?

.....

.....
