Saturday						K			

DEVELOPMENT MILESTONES IN A CHILD

Development milestones are a set of functional skills or age-specific tasks that most children can do at a certain age. These milestones help the teacher to identify and understand how children differ in different age groups.

Age 5 - 8 Years	
Physical	• First permanent tooth erupts • Shows mature throwing and catching patterns • Writing is now smaller and more readable • Drawings are now more detailed, organised and have a sense of depth
Cognitive	• Attention continues to improve, becomes more selective and adaptable • Recall, scripted memory, and auto-biographical memory improves • Counts on and counts down, engaging in simple addition and subtraction • Thoughts are now more logical
Language	• Vocabulary reaches about 10,000 words • Vocabulary increases rapidly throughout middle childhood
Emotional/Social	• Ability to predict and interpret emotional reactions of others enhances • Relies more on language to express empathy • Self-conscious emotions of pride and guilt are governed by personal responsibility • Attends to facial and situational cues in interpreting another's feelings • Peer interaction is now more prosocial, and physical aggression declines

"If you cannot do great things, do small things in a great way."

Age 9 - 11 Years	
Physical	• Motor skills develop resulting enhanced reflexes
Cognitive	• Applies several memory strategies at once • Cognitive self-regulation is now improved
Language	• Ability to use complex grammatical constructions enhances • Conversational strategies are now more refined
Emotional/Social	• Self-esteem tends to rise • Peer groups emerge

Age 11 - 20 Years	
Physical	• If a girl, reaches peak of growth spurt • If a girl, motor performance gradually increases and then levels off • If a boy, reaches peak and then completes growth spurt • If a boy, motor performance increases dramatically
Cognitive	• Is now more self-conscious and self-focused • Becomes a better everyday planner and decision maker
Emotional/Social	• May show increased gender stereotyping of attitudes and behaviour • May have a conventional moral orientation

Managing the children's learning needs according to their developmental milestones is the key to a successful teaching-learning transaction in the classroom.

“Family is the most important thing in the world.”

TEACHING PEDAGOGIES

Pedagogy is often described as the approach to teaching. It is the study of teaching methods including the aims of education and the ways in which such goals can be achieved.

Lesson Plans

A lesson plan is the instructor's road map which specifies what students need to learn and how it can be done effectively during the class time. A lesson plan helps teachers in the classroom by providing a detailed outline to follow in each class.

A lesson plan addresses and integrates three key components:

- Learning objectives
- Learning activities
- Assessment to check the student's understanding

A lesson plan provides an outline of the teaching goals:

Before the class:

1. Identify the learning objectives.
2. Plan the lesson in an engaging and meaningful manner.
3. Plan to assess student's understanding.
4. Plan for a lesson closure.

During the class:

Present the lesson plan.

After the class:

Reflect on what worked well and why. If needed, revise the lesson plan.

"Knowing yourself is the beginning of all wisdom."

Teaching Strategies

Numerous strategies have evolved over the years to facilitate the teaching-learning process in the classrooms.

Bloom's Taxonomy

Bloom's Taxonomy was created by **Dr Benjamin Bloom** and several of his colleagues, to promote higher forms of thinking in education instead of rote learning. There are three domains of learning: cognitive (mental), affective (emotional), and psychomotor (physical). However, when we refer to Bloom's Taxonomy we speak of the cognitive domain. Bloom's Taxonomy is a list of cognitive skills that is used by teachers to determine the level of thinking their students have achieved. As a teacher, one should attempt to move students up the taxonomy as they progress in their knowledge.

Teachers should focus on helping students to remember information before expecting them to understand it, helping them understand it before expecting them to apply it to a new situation, and so on.

"If you have no confidence in self, you are twice defeated in the race of life."

1. Computer—A Wonderful Machine

Teaching Objectives

Students will learn about

- ☞ Natural and Man-made Things
- ☞ What are Machines?
- ☞ Computer—A Wonderful Machine
- ☞ How is a Computer Different from other Machines?

Number of Periods

3

Teaching Plan

While teaching this chapter, ask the students to colour the picture given on Page 7 of the main course book.

Share with the students that the picture is of a computer.

Tell them that computer is a machine.

Encourage the students to name some things which they see around themselves.

Make them understand some of these things are natural like sun, moon, star, mountains, cat, dog, tree, boy, girl, etc. The other things are man-made like chair, table, TV, fan, pencil, eraser, board, building, washing machine, mobile, etc.

Explain to the students that machines are made by man.

Give examples of some machines around us like refrigerator, air conditioner, television, mobile, car, etc. and their use.

Tell them that computer is a machine.

Tell them the various things we can do with the computer like doing sums, drawing, listening to music, watching movies, learning, etc.

Encourage them to tell why computer is different from other machines (other machines can only do the work for which they are made but computer can do many kinds of work).

Ensure that the scope of For The Teacher given at the end of the chapter has been covered.

Extension

Ask the students some oral questions based on this chapter.

- Q. Is computer a machine?
- Q. Name some natural things.
- Q. Name some man-made things.
- Q. Who makes machines?
- Q. Are machines natural?
- Q. What is the use of air conditioner / refrigerator / washing machine / television / mobile / car?
- Q. What does a computer need to run?
- Q. How is computer different from other machines?

Evaluation

After explaining the chapter, let the students do the course book exercises given on Pages 10, 11 and 12 of the main course book as Exercise. After solving the course book exercises, tell the students to solve Activity Zone activity given on Page 12. Help the students to solve these questions.

In Creative Assignment, activities like Let's Get Better and Practical Zone given on Page 13 of the main course book will enhance the ability of the students and serve as a Subject Enrichment activity.

Suggested Activity

Show pictures of some machines (calculator, fan, sewing machine, set top box, cycle, clock, microwave, stapler, electronic toy, etc.) and ask the students what they are used for?

2. Knowing a Computer

Teaching Objectives

Students will learn about

- ☞ Features of a Computer
- ☞ Functions of a Computer
- ☞ Places where Computers are used
- ☞ What Computers Cannot Do?
- ☞ Types of computers

Number of Periods

2

Teaching Plan

While teaching this chapter, tell the students that computer is a magical machine and makes our work faster and easier.

Explain to the students the features of a computer covering:

- Fast
- Search information
- Non-tiredness
- No mistakes
- Do many types of works
- Large storage

Tell the students about various functions of a computer covering:

- Type letters, words and sentences
- Draw and colour images
- Watch cartoons and movies
- Calculate sums
- Play games
- Play songs

Explain to the students where we can use the computers.

- Home
- Office
- Shops
- School
- Hospital
- At Railway Station and Airport

Share with the students that there are some things which computers cannot do like:

- Think
- Walk
- Breathe
- Dance
- Swim

Make the students understand about different types of computers like:

- Desktop computer (big and kept on desk)
- Laptop computer (smaller and kept on lap)
- Tablet (smallest and held in hand)

Ensure that the scope of For The Teacher given at the end of the chapter has been covered.

Extension

Ask the students some oral questions based on this chapter.

- Q. State two features of a computer.
- Q. Does a computer get tired?
- Q. Do computers make mistakes?
- Q. Why do we use computers?
- Q. Name any two places where we can use the computer.
- Q. Name two things that a computer cannot do.
- Q. How many types of computers are there?
- Q. What is a desktop computer / laptop computer / tablet?

Evaluation

After explaining the chapter, let the students do the course book exercises given on Pages 18 and 19 of the main course book as Exercise. After solving the course book exercises, tell the students to solve Activity Zone activity given on Page 20. Help the students to solve these questions.

In Creative Assignment, activities like Let's Get Better and Practical Zone given on Page 20 of the main course book will enhance the ability of the students and serve as a Subject Enrichment activity.

Suggested Activity

Ask the students to discuss with their parents and elders to learn more about what they use the computer for. Encourage the students to share some more uses of computers with the class.

3. Parts of a Computer

Teaching Objectives

Students will learn about

- 🖨 Monitor
- 🖨 CPU
- 🖨 Mouse
- 🖨 Keyboard
- 🖨 Other Parts of a Computer

Number of Periods

3

Teaching Plan

While teaching this chapter, tell the students that just as our body has different parts like hands, eyes, brain, etc. similarly, a computer also has various parts.

Tell the students that a computer has four main parts:

- **Monitor** – also called Visual Display Unit (VDU), looks like a television, used to see pictures, games, cartoons, alphabet, numbers and words.
- **CPU** – stands for Central Processing Unit, fixed inside CPU box, called brain of the computer, most important part of the computer.
- **Mouse** – device with long wire, two buttons and scroll wheel, used to draw pictures.
- **Keyboard** – has small buttons called keys, used for typing numbers and letters.

Share with the students that a computer has some additional parts also like:

- **Speakers** – attached to computer, used to hear sounds and music stored in computer.
- **Headphones** - attached to computer, used to hear sounds and music stored in computer without disturbing others.
- **Printer** – used to print text and images on paper.

Ensure that the scope of For The Teacher given at the end of the chapter has been covered.

Extension

Ask the students some oral questions based on this chapter.

- Q. Name the four main parts of a computer.
- Q. What is the use of Monitor / Mouse / keyboard /CPU?
- Q. What does CPU stand for?
- Q. Name some additional parts of a computer.
- Q. Expand CPU.
- Q. Where is CPU fixed?

Evaluation

After explaining the chapter, let the students do the course book exercises given on Pages 25 and 26 of the main course book as Exercise. After solving the course book exercises, tell the students to solve Activity Zone activity given on Pages 26 and 27. Help the students to solve these questions.

In Creative Assignment, activities like Let's Get Better and Practical Zone given on Page 27 of the main course book will enhance the ability of the students and serve as a Subject Enrichment activity.

Suggested Activity

Ask the students to paste pictures of different parts of a computer in their computer notebook and write their names.

4. Using a Keyboard

Teaching Objectives

Students will learn about

- 👉 Keys on the Keyboard
- 👉 Number Keys
- 👉 What is a Cursor?
- 👉 Alphabet Keys
- 👉 Special Keys

Number of Periods

3

Teaching Plan

While teaching this chapter, tell the students that keyboard is used to type on computer screen.

Show to the students that a keyboard has small buttons on it called keys.

Make the students count that a computer keyboard has 101 to 104 keys.

Tell the students that the keys on a keyboard are divided into three categories:

- **Alphabet keys** – 26 in number (A to Z)
- **Number keys** – 10 in number (0 to 9)
- **Special keys** – Enter, Spacebar, Backspace, etc.

Show to the students the position of various categories of keys on the keyboard.

Make the students understand that the alphabet keys (A to Z) on the keyboard are also used to write in small letters (a to z).

Share with the students that the number keys are used to type numbers and there are two sets of number keys on a keyboard.

Show to the students that there are some special keys also on the computer like:

- **Spacebar key** – longest key at the bottom, used to give blank space between letters and words.
- **Enter key** – also called Return key, two in number, used to move to the next line.
- **Backspace key** – used to erase what we have typed.

Open a MS Word file and show to the students the small blinking line called cursor.

Make the students understand that the cursor shows the place where the typed letters will appear.

Ensure that the scope of For The Teacher given at the end of the chapter has been covered.

Extension

Ask the students some oral questions based on this chapter.

- Q. What are the small buttons on a keyboard called?
- Q. How many keys are there on a keyboard?
- Q. Name the categories in which the keys on a keyboard are divided into.
- Q. What are alphabet / number keys used for?
- Q. How many sets of number keys are there on the keyboard?
- Q. How many alphabet keys are there on the keyboard?
- Q. What is the use of Enter / Spacebar / Backspace key?
- Q. Name some special keys.
- Q. What is a cursor?

Evaluation

After explaining the chapter, let the students do the course book exercises given on Page 31 of the main course book as Exercise. After solving the course book exercises, tell the students to solve Activity Zone activity given on Page 32. Help the students to solve these questions.

In Creative Assignment, activity like Practical Zone given on Page 32 of the main course book will enhance the ability of the students and serve as a Subject Enrichment activity.

Suggested Activity

Ask the students to paste a picture of computer keyboard in the computer notebook and label Number keys, Alphabet keys, Enter keys, Spacebar key and Backspace key on it.

5. Let's Type in RapidTyping

Teaching Objectives

Students will learn about

☞ RapidTyping

☞ Using RapidTyping

☞ Parts of RapidTyping Window

Number of Periods

2

Teaching Plan

While teaching this chapter, tell the students that RapidTyping is the touch-typing program.

Tell the students that touch-typing is typing without looking at the keyboard.

Introduce RapidTyping to the students along with the main parts i.e., Toolbar, Status bar, Lesson area and Keyboard area.

Demonstrate the use of RapidTyping to the students using the steps shown in the chapter.

Ensure that the scope of For The Teacher given at the end of the chapter has been covered.

Extension

Ask the students some oral questions based on this chapter.

Q. What is touch-typing?

Q. What RapidTyping?

Q. How many parts are there in RapidTyping window?

Evaluation

After explaining the chapter, let the students do the course book exercises given on Pages 38 and 39 of the main course book as Exercise. After solving the course book exercises, tell the students to solve Activity Zone activity given on Page 39. Help the students to solve these questions.

In Creative Assignment, activities like Let's Get Better and Practical Zone given on Page 39 of the main course book will enhance the ability of the students and serve as a Subject Enrichment activity.

Suggested Activity

Ask the students to practice any lesson two times and compare there result.

6. Using a Mouse

Teaching Objectives

Students will learn about

- ☞ Buttons of a Mouse
- ☞ How to Hold a Mouse
- ☞ How to Use a Mouse

Number of Periods

2

Teaching Plan

While teaching this chapter, tell the students that a mouse helps us to tell the computer what to do.

Share with the students some uses of a computer mouse.

Tell the students that the small arrow moving on the screen is called pointer.

Tell the students about the buttons of scroll mouse.

- Scroll mouse – has two buttons (left and right) and a scroll wheel.

Show the correct way of holding the mouse with reference to the position of fingers and palm (shown in the main course book).

Show that a computer mouse can be used for:

- **Pointing** – by moving the pointer
- **Clicking** – by pressing mouse buttons
- **Single-clicking or Clicking** – pressing and releasing left button quickly, used to select an icon.
- **Double-clicking** – pressing and releasing the left button twice quickly, used to open a program.
- **Right-clicking** – pressing and releasing the right button quickly, used to display a shortcut menu.

Ensure that the scope of For The Teacher given at the end of the chapter has been covered.

Extension

Ask the students some oral questions based on this chapter.

- Q. What is a mouse used for?
- Q. Name the pointing device.
- Q. Which finger must be placed on left button / right button?
- Q. Which finger must be used to scroll the wheel?
- Q. Which fingers must be used to hold the sides of the mouse?
- Q. Define pointing / clicking.

Q. What is the meaning of single-click / double-click / right-click?

Q. What is single-click / double-click / right-click used for?

Evaluation

After explaining the chapter, let the students do the course book exercises given on Pages 44 and 45 of the main course book as Exercise. After solving the course book exercises, tell the students to solve Activity Zone activity given on Page 45. Help the students to solve these questions.

In Creative Assignment, activity like Practical Zone given on Page 45 of the main course book will enhance the ability of the students and serve as a Subject Enrichment activity.

Suggested Activity

Ask the students to draw a picture of a mouse representing single-click, double-click and right-click.

7. Tux Paint

Teaching Objectives

Students will learn about

- | | |
|--------------------------|-----------------------------|
| ☞ Starting Tux Paint | ☞ Parts of Tux Paint Window |
| ☞ Starting a new Drawing | ☞ Colouring an Image |
| ☞ Using Paint Tool | ☞ Erasing a Picture |
| ☞ Saving a Picture | ☞ Closing Tux Paint |

Number of Periods

3

Teaching Plan

While teaching this chapter, tell the students that Tux Paint is a freehand drawing program designed for young children.

Demonstrate to the students the steps involved in starting Tux Paint.

Show to the students the Welcome Screen of Tux Paint with penguin as the mascot.

Familiarize the students with the window of Tux Paint showing the position and explain the use of Toolbar (contains drawing tools), Colors Palette (contains color choices), Selector (to select desired shapes) and Drawing Canvas (drawing and colouring space).

Tell the students about basic tools of Tux Paint covering:

- **New Tool** – used to start new drawing
- **Fill Tool** – used to fill colour of your choice
- **Paint Tool** – used to draw different freehand shapes
- **Eraser Tool** – used to erase unnecessary parts of drawing
- **Quit Tool** – used to come out of Tux Paint program

Demonstrate the use of save button and each of these tools to the students.
Ensure that the scope of For The Teacher given at the end of the chapter has been covered.

Extension

Ask the students some oral questions based on this chapter.

- Q. What is Tux Paint?
- Q. Name some parts of Tux Paint window.
- Q. What is the use of Toolbar / Drawing canvas / Selector / Colors Palette?
- Q. Which tool is used to start a new drawing?
- Q. Name some tools of Tux Paint.
- Q. What is the use of Paint / Fill / Eraser / Quit Tool?
- Q. Which tool helps you to use your drawing later?

Evaluation

After explaining the chapter, let the students do the course book exercises given on Pages 52, 53 and 54 of the main course book as Exercise. After solving the course book exercises, tell the students to solve Activity Zone activity given on Page 54. Help the students to solve these questions.

In Creative Assignment, activity like Practical Zone given on Page 55 of the main course book will enhance the ability of the students and serve as a Subject Enrichment activity.

Suggested Activity

Ask the students to redraw the shapes drawn in Paint earlier in Tux Paint also.

8. Let us Draw in Paint

Teaching Objectives

Students will learn about

- ☞ Opening Paint
- ☞ Drawing Shapes
- ☞ Saving your Drawing
- ☞ Parts of Paint Window
- ☞ Filling Colour in a Shape
- ☞ Closing Paint

Number of Periods

3

Teaching Plan

While teaching this chapter, tell the students that Paint is a program used to draw and colour.

Demonstrate the steps to open Paint to the students.

Familiarize the students with Paint window showing Quick Access Toolbar, Tab, Group, Ribbon and Drawing Area.

Tell the students about the uses of Tools group (contains tools), Colors group (contains colour options) and Shapes group (contains shapes).

Demonstrate the steps to:

- draw straight lines using Line shape.
- draw rectangles using Rectangle shape.
- fill colours in closed shapes using Fill with Color tool.
- draw Oval using Oval shape.

Demonstrate the steps to save a drawing to the students.

Show to the students the steps to close Paint.

Ensure that the scope of For The Teacher given at the end of the chapter has been covered.

Extension

Ask the students some oral questions based on this chapter.

- Q. What is Paint?
- Q. What is the use of Line / Rectangle shape?
- Q. What is the use of Brushes / Fill with Color tool?
- Q. How can the width of the Brush be changed?
- Q. Under which category is the Paint program listed?
- Q. Name the groups present on Paint window.
- Q. What does the Colors / Shapes / Tools group contain?

Evaluation

After explaining the chapter, let the students do the course book exercises given on Pages 62 and 63 of the main course book as Exercise. After solving the course book exercises, tell the students to solve Activity Zone activity given on Page 63. Help the students to solve these questions.

In Creative Assignment, activity like Practical Zone given on Page 64 of the main course book will enhance the ability of the students and serve as a Subject Enrichment activity.

Suggested Activity

Ask the students to draw the following shapes in Paint.
