EVALUATION

Chapter-7

1. State whether the following statement is True or False.

- F1 score also called F-score or F-measure is the measure of a test's accuracy.
- A model is said to have a good performance if the F1 Score for that model is high.
- A model is considered to be a total failure when the F1 score is 100.
- Precision is the percentage of True Positive cases and All Predicted Positive Cases.
- Confusion matrix is also known as the Error Matrix.

2. Consider the following confusion matrix:

The Confusion Matrix	Reality:1	Reality:0
Prediction:1	22	12
Prediction:0	40	10

Calculate Accuracy, Precision, Recall and F1 Score for the above problem.
