.....
.....

- Explain any two attributes of the `<INPUT>` tag.

.....
.....

- Explain the `<TEXTAREA>` tag.

.....
.....

C. Competency-based/Application-based question:

One of your friends created a website to expand his father's business. He added details about the business, and images to make it look more attractive. He wants to add a toggle switch where users can select a desired choice regarding the business. However, he has been struggling to do so. How will you help him with this problem?
