

## Worksheet

| Name:    |        |          |
|----------|--------|----------|
| Roll No: | Class: | Section: |
| Date:    |        |          |

| ELE | ECT  | RONIC SPREADSHEET   |  |      |               | Unit-4 |  |
|-----|------|---|--|------|---------------|--------|--|
| 1.  | Tick | Tick (√) the correct option.  |  |      |               |        |  |
|     | (a)  | a) Which option of the Format menu helps to format the cells in a worksheet?                              |  |      |               |        |  |
|     |      | (i) Cells   |  | (ii) | Row           |        |  |
|     |      | (iii) Column  |  | (iv) | Sheet         |        |  |
|     | (b)  | Which of the following chart re   | of the following chart represents the data over a period of time in columns? |      |               |        |  |
|     |      | (i) Bar Chart   |  | (ii) | Column Chart  |        |  |
|     |      | (iii) Line Chart  |  | (iv) | None of these |        |  |
|     | (c)  | How many rows are there in a  | How many rows are there in a Calc worksheet?                                 |      |               |        |  |
|     |      | (i) 11,48,576   |  | (ii) | 10,48,576     |        |  |
|     |      | (iii) 10,48,445   |  | (iv) | 10,58,576     |        |  |
|     | (d)  | ) A is identified with its column position followed by its row number.                                    |  |      |               |        |  |
|     |      | (i) Cell address  |  | (ii) | Cell name     |        |  |
|     |      | (iii) Column address  |  | (iv) | Row address   |        |  |
|     | (e)  | refer to da   | ata on which formula is applied.   |      |               |        |  |
|     |      | (i) Operands  |  | (ii) | Formulae      |        |  |
|     |      | (iii) Operators   |  | (iv) | None of these |        |  |
|     | (f)  | Which of the following consists of the operands and the operators which operate upon t data?              |  |      |               |        |  |
|     |      | (i) Formula   |  | (ii) | Cell          |        |  |
|     |      | (iii) Worksheet   |  | (iv) | Workbook      |        |  |
| 2.  | Fill | in the blanks.  |  |      |               |        |  |
|     | (a)  | ) By default, the numeric data appears aligned in Calc.   |  |      |               |        |  |
|     | (b)  | An is a symbol that performs certain mathematical or logical operations.                                  |  |      |               |        |  |
|     | (c)  | The option wraps the text in multiple lines to accommodate the tex automatically within the Column width. |  |      |               |        |  |
|     | (d)  | The option reduces the font size of the contents to accommodate it size within the Column width.          |  |      |               |        |  |
|     | (e)  | If $a=20$ and $b=10$ , then the function =IF( $a < b$ , "Small", "Large") will return                     |  |      |               |        |  |
|     | (f)  | All the alignment options are available in the toolbar.   |  |      |               |        |  |
|     | (g)  | numbers, etc. are automatically generated once the user feeds the initial data.                           |  |      |               |        |  |
