PERSONALIZING WINDOWS 7

Chapter-2

A. Write 'T' for true and 'F' for false.

1. Windows is a Geometrical User Interface.
2. Windows changes the transparency and intensity of the window border.
3. Start button is not the gateway to windows and programs.
4. The color used for windows' border, title bar, etc. is called the Window Color.

B. Complete the crossword.

C. Number the steps to update time on your computer.

- ☐ 1. Use up/down buttons to change their values. With the change in the time in digital clock, analog clock is automatically updated.
- ☐ 2. Close the Date and Time settings dialog box by clicking on OK button. The notification area will start showing the updated date and time.
- ☐ 3. From Date and Time settings dialog box click on hours, minutes or seconds to change.
